

Yousef Al-Deeb

Full Stack Developer | ASP.NET Core | C# | ASP.NET MVC | SQL Server | Oracle | Angular

Amman, Jordan | +962 79 583 7513 | yousef.aldeeb11@gmail.com | [LinkedIn](#) | [GitHub](#) | [portfolio](#)

Professional Summary

Software Engineer with hands-on experience in designing, developing, and maintaining enterprise web applications using ASP.NET Core, ASP.NET MVC, C#, and Entity Framework, and currently working as a Full Stack Developer at the Royal Scientific Society (RSS), contributing to the development and enhancement of an enterprise academic management system.

Experienced in both Code First and Database First development approaches, with strong knowledge of Microsoft SQL Server and Oracle Database. Skilled in analyzing business requirements, developing scalable features, troubleshooting complex issues, and collaborating within Agile development teams.

Passionate about building secure, high-performance web applications while continuously learning modern technologies and software engineering best practices.

Professional Experience

➤ Full Stack Developer | Royal Scientific Society (RSS) | Jan 2025 – Present

- Develop and maintain enterprise-level academic management systems using ASP.NET Core, ASP.NET MVC, and C#.
- Build scalable web applications using Entity Framework with both Code First and Database First approaches.
- Develop and maintain business logic while implementing new system features based on business requirements.
- Design, optimize, and integrate relational databases using Oracle SQL and Microsoft SQL Server.
- Write complex SQL queries, stored procedures, and database integrations for enterprise applications.
- Collaborate with cross-functional teams to analyze requirements and deliver software enhancements.
- Debug, troubleshoot, and resolve application issues to improve system reliability and performance.
- Participate in system maintenance, feature enhancements, and continuous improvement initiatives.
- Utilize ASP.NET Web API, AJAX, JavaScript, HTML5, CSS3, and Bootstrap to build responsive web applications.
- Work with Angular in developing modern front-end components.
- Generate reports using SQL Server Reporting Services (SSRS).
- Manage source code and collaborate using Git-based repository management.

➤ Software Development Officer | Electronic Health Solutions (EHS) | May 2024 – Jan 2025

- Completed intensive training on the VistA Healthcare Information System architecture.
- Developed an understanding of the MUMPS (M) programming language.
- Worked with healthcare modules and clinical information systems.
- Participated in analyzing healthcare workflows and supporting software implementation.
- Gained experience with enterprise healthcare software architecture and system integration.

➤ Full Stack Developer Intern | Orange Coding Academy | Oct 2023 – Jan 2024

- Developed responsive web applications using ASP.NET Core MVC, HTML5, CSS3, Bootstrap, and JavaScript.
- Built multiple full-stack projects, including an Attendance Tracking System, E-Commerce Platform, and Portfolio Website.
- Collaborated using GitHub, Trello, and Discord within Agile teams.
- Designed UI wireframes using Miro and applied UI/UX best practices.

➤ ASP.NET Core MVC Trainee | Coderz for Software & Training | Oct 2022 – Dec 2022

- Completed an intensive 60-hour ASP.NET Core MVC training program.
- Developed web applications using C#, .NET Framework, and Entity Framework Core.
- Applied OOP principles, Data Annotations, Validation, SQL, and REST API development.
- Built CRUD applications using MVC architecture.

Technical Skills

- **Backend Development:** ASP.NET Core, ASP.NET MVC, C#, .NET Framework, Entity Framework Core, Web API, RESTful APIs, OOP
- **Frontend Development:** Angular, JavaScript, HTML5, CSS3, Bootstrap, AJAX, Responsive Web Design
- **Databases & Reporting:** Microsoft SQL Server, Oracle Database, Oracle SQL Developer, Toad, Database Design, SSRS
- **Software Engineering:** MVC Architecture, Repository Pattern, Dependency Injection, Agile (Scrum), SDLC, Git & GitHub, Debugging, Requirement Analysis
- **Tools:** Trello, Miro, Postman

Education

Bachelor's Degree in **Software Engineering** | Jordan University of Science and Technology

Technical Projects

- **Academic Medical Consultation System (Health Provisor)** | ASP.NET Core MVC | SQL Server | AJAX | Bootstrap
 - Developed a complete medical consultation platform supporting Patients, Doctors, and Administrators.
 - Implemented secure authentication and role-based authorization.
 - Built responsive user interfaces using Bootstrap.
 - Integrated SQL Server database with Entity Framework.
 - Applied Dependency Injection and MVC Architecture.
- **Tabeebk.com (Graduation Project)** | Jordan University of Science and Technology
 - Developed an online clinic booking platform using ASP.NET MVC.
 - Implemented appointment scheduling and role management.
 - Designed secure database architecture and user authentication.
- **Mobile E-Commerce Platform (5Dot)** | Orange Coding Academy
 - Developed a mobile-friendly e-commerce system using ASP.NET Core MVC.
 - Implemented product catalog, shopping cart, and secure payment workflow.
 - Designed responsive UI with Bootstrap.
- **Product Purchase System (PPS)** | Hope International Company | Node.js
 - Developed a procurement management system using Node.js.
 - Streamlined purchasing workflows and product management.
 - Improved procurement process efficiency.

Certifications

- Professional Business Writing | Royal Scientific Society | [Certificate](#)
- SQL Server Reporting Services (SSRS) | Udemy (5.5 Hours) | [Certificate](#)
- ISO 9001 Foundation | Royal Scientific Society | [Certificate](#)
- ASP.NET Core MVC Training | Coderz for Software & Training (60 Hours) | [Certificate](#)
- Node.js Backend Development | Hope International Company (40 Hours) | [Certificate](#)
- Entrepreneurship | Cisco Networking Academy | [Certificate](#)
- Advanced Computer Skills (Microsoft Office) | [Certificate](#)

Languages

- Arabic: Native
- English: Very Good
